1. INTRODUCTION

As a centre for creation, Tabakalera has a residency programme to support artists, creators, and cultural agents. This aid programme aims to support production processes and provide support on both a conceptual and production level.

Chillida Leku is a unique museum, conceived as a huge work of art itself, where the fusion between art and nature takes place naturally. In addition to highlighting the value and preserving the work of Eduardo Chillida, Chillida Leku carries out a series of activities linked to artistic creation through activities that foster reflection, experimentation and action.

With the aim of promoting artistic creation and investigation linked to the relationship between contemporary art, public space and landscape, Chillida Leku and Tabakalera have set up, in collaboration, an artist residency programme.

This programme aims to promote new networks and artistic circuits and create a space in which different agents and their projects coexist to bring about possible collaborations between residents and guest agents of a variety of nationalities.

2. PURPOSE

The purpose of this programme is to develop an artistic residency between Chillida Leku - (Hauser & Wirth San Sebastian) and Tabakalera - International Centre for Contemporary Culture, in San Sebastian.

This call is aimed at artists of any nationality who wish to explore new artistic contexts and develop an artistic investigation and creation project linked to art and the landscape.

The residency, which will take place over the course of **eight weeks between October and December 2023**, will offer a space, context and time for the development of the artistic project, at the Chillida Leku and Tabakalera facilities.

One proposal will be chosen from among all the projects submitted during the open call.

3. CANDIDATES / PARTICIPANTS

All natural or legal persons will be able to participate in the call to develop contemporary art-related projects partially or in their entirety, whether they have already developed their activity in this area, or because they wish to begin a professional career in the sector.

4. COMMITTEE AND SELECTION CRITERIA

The projects submitted will be assessed by a mixed committee, comprised by representatives from both institutions and guest external agents, according to the following criteria:

1. Innovation and originality. The level of contribution to the activities and the context will also be valued.
2. The quality and creativity of the project.
3. The relevance of the project regarding the relationship between art and landscape, art and nature, and/or art and public space.
4. The viability and level of adaptation to the resources and work spaces that Chillida Leku and Tabakalera have available.
5. The ability to create channels through which artistic activity can flow within the context of Chillida Leku and Tabakalera's residency programme and their social and artistic fabric.

Basic knowledge of Spanish, English or Basque is essential.

The committee will prepare a waiting list in case the candidate, due to personal reasons, cannot access the residency.

The committee may decide to declare the call void if they consider that none of the projects possess sufficient merits.
